

INTERNATIONAL  
WORKSHOP ON  
**HIV &  
WOMEN**  
2022

FROM ADOLESCENCE  
TO MENOPAUSE

**VIRTUAL MEETING**  
6-8 APRIL 2022

**PROGRAM CHAIR**

**Sharon Walmsley,  
C.M., MD, FRCPC**  
University Health  
Network, Canada

## ABOUT THE WORKSHOP

The **International Workshop on HIV & Women** has completed its 11th year and continues to evolve. It is an outstanding opportunity for health care providers, researchers, government, industry, and community representatives to discuss, debate, and further their knowledge on the issues related to HIV and women.

The format of the workshop enables attendees to learn from experts in the field of HIV and related health, and then discuss the issues, gaps, and opportunities for further learning and research. Many of the attendees continue to participate each year and have formed valuable relationships and partnerships that have led to collaborative projects. The enthusiasm and dedication of the

participants is palpable throughout the workshop. The debates and round tables are an important vehicle to discuss the issues and challenge dogmas. Over the years, the number and quality of submitted abstracts have continued to improve. The workshop also provides a forum for new investigators to present their work and to personally meet with experts they view as mentors and inspiration for their work. The workshop considers both local and global issues and the information learned in one setting is often translated to another.

### Learning Objectives:

After attending this workshop, participants will be able to:

- Define the impact of COVID-19 in women living with HIV;
- Reflect on vaccinating pregnant and breastfeeding women living with HIV against COVID-19;
- Outline the disruptions that COVID-19 brought to HIV service delivery;
- Describe the multiple facets of weight gain following ART initiation; and
- Specify new treatments and PrEP regimens for women living with HIV.

## ORGANIZING COMMITTEE

**Annette Haberl, MD, PhD**  
HIVCENTER University Hospital Frankfurt, Germany

**Catherine Hankins, MD, PhD, FRCPC, CM**  
McGill University, Canada

**Margaret Johnson, MD**  
Royal Free London NHS Foundation Trust, United Kingdom

**Angelina Namiba, BA Hons**  
4MNetwork of Mentor Mothers, United Kingdom

**Fungai Murau, MA**  
Independent Consultant, United Kingdom

**Natella Rakhmanina, MD, PhD, FAAP, FCP, AAHIVS**  
Children's National Hospital, United States

**Sharon Walmsley, C.M., MD, FRCPC**  
University Health Network, Canada

## CALL FOR ABSTRACTS

We invite you to contribute to the program of the **12th International Workshop on HIV & Women** by submitting an abstract. Do not miss this excellent opportunity to discuss your work with world experts in the HIV & Women field in an informal workshop setting.

Abstracts can be submitted under the following categories:

- Epidemiology of HIV in Women and Girls;
- HIV Prevention in Women (Including PrEP);
- Diagnosis and Treatment of HIV Infection;
- Contraception, Pregnancy, Breastfeeding, and PMTCT;
- Co-Morbidities in Women Living With HIV;
- Underrepresented Populations: People Working in the Sex Industry, Transgender Women, Adolescents;
- Challenges for Women Living With HIV: Mental Health, Poverty, Trauma;
- Impact of COVID-19; and
- Other Research Relevant to HIV and Women.

Successful candidates will be invited for an **oral** or **poster presentation**. **Complimentary registration** will be provided for successful candidates that either qualify as young investigators or are academia from Resource-Limited Settings (RLS).

Visit our [website](https://academicmedicaleducation.com/meeting/hiv-and-women-2022) for additional information on abstract submission and available discounts for authors of accepted abstracts.

### Young Investigators:

We are pleased to waive the registration fee for young investigators with an accepted abstract and provide a 50% discount on the registration fee for young investigators without an accepted abstract.

**IMPORTANT:** the registration fee waiver is offered to the presenting author of the abstract only.

The applicant should:

- be 35 years of age or younger;
- be a Master/PhD student; or,
- have obtained a MD / PhD degree in the last five years
